chelseanbr@utexas.edu

Abstract

This is the abstract of your ACM-style research paper. LLMs show strong clinical reasoning [2]. Question entailment is also important [1]. Another citation [3].

1 Introduction

This is where you introduce your work.

2 Related Work

Discuss previous work here.

3 Methodology

Explain what you did.

4 Results

Show your results here.

5 Conclusion

Wrap it up and suggest future directions.
